

## Universeal

New seals now available on Aqua-Flo by Gecko pumps for spas and hot tubs!  
with features that speak for themselves and benefits that are all yours!

### Universeal's characteristics:

- Fewer parts for optimized reliability (Five parts compared to seven for other seals)
- Superior leak resistance (fewer joints than other seals)
- Twice as much sealing surface on the impeller shaft than other seals for optimal torque transmission
- Full rubber protection through stainless steel 316 jacket
- Low-friction ceramic (silicon ceramic)
- High thermal conductivity that quickly dissipates heat caused by friction
- Polymeric Viton™ gasket that provides high resistance to heat and chemical products
- Crimped carbon friction ring for maximized strength

Standard seals of  
Aqua-Flo by Gecko's Circ-Master CMXP  
and CMXP CE circulation pumps.

### Pump Returns caused by leaks

Studies show that for high volume customers that purchased similar quantities of pumps, customers purchasing Universeal equipped pumps have a return rate 4 times inferior to the return rate of pumps equipped with other types of seals purchased by
