pumps for small to swim spas

New XP2-LE

Familiar body! Different beast!

Think about a jet pump and a circulation pump, in a single body... that's our new Aqua-Flo by Gecko XP2-LE pump! Our new beast is easy to install and is the best solution for spa models needing a two-speed pump and a filtration pump.

The new Aqua-Flo by Gecko XP2-LE pump offers the best answer for every use : Low-energy consumption and great performance at high speed. With its best quality copper motor, the XP2-LE is tougher and better heat resistant.

An all-in-one pump with the performance you want...and energy saving!

With the same quantity of water and filtration settings, our XP2-LE takes less time of filtration per day than the CP and cost far less than the regular 2-speed pump.

	circulation pump	regular 2-speed pump	XP2-LE
Water size: 330 gal	Filtration per day	Filtration per day	Filtration per day
Water turn: 51 times/day	8 Hrs	4 Hrs	6.1 Hrs
\$/kwh: .15\$	Current 0.7 A	Current 4.4 A	Current 0.95 A
	71\$ /yr	222\$ /yr	73\$ /yr
