

assistant vocal in.touch 2

“Alexa... Hey Google... ask my spa control...”

Le in.touch 2 est désormais entièrement compatible avec les assistants vocaux d'Amazon et de Google.

Oui! Vous pouvez maintenant parler à votre spa!

Fonctionne avec Amazon Alexa et Google Home.

Obtenez une réponse aux commandes et à vos questions.

Quelques exemples de commandes vocales et de questions-réponses.

Notez qu'Alexa et Google Home ne sont disponibles que pour les comptes Amazon et Google configurés en anglais.

Q Ask my spa control what is my temperature setting.

A “Your set point has been set to...”

Q Ask my spa control what is the connection state between my two in.touch 2 transmitters.

A “Your in.touch is connected and reachable.”

Q Ask my spa control to start my spa.

A “Your spa has been started.”

Q Ask my spa control to stop my spa.

A “Your spa has been stopped.”

Q Ask my spa control to set the watercare to away from home.

A “Your current watercare is set to...”

Q Ask my spa control what is the water temperature.

A “Your water temperature is currently....”

Q Ask my spa control what is the UPL message/error code.

A “The UPL message means your spa pack doesn't have a valid software...”

Q Ask my spa control what is the FLO message/error code.

A “This is the no flow condition. This could be due to a few reasons, like your circulation...”
