

2024 product showcase

# Welcome to a world of innovation and service

Optimize your customers' spa experience with Gecko Alliance's control systems, keypads, pumps, apps and accessories for hot tubs.

# maelstrom™

## CMS-1

The most **reliable** circulation pump  
is now also the most **efficient**

More efficiency means moving more water with less energy!

### Efficiency

We've put all our engineering knowledge at work to offer the best efficiency on the market. Thanks to all the skills and expertise Gecko acquired over the years, this pump offers outstanding performance in a compact design. With its superior efficiency, the Maelstrom CMS-1 circulates up to 30% more water in the same period, and thus, reduces the filtration cycle duration.

### Quietest

When it's time to kick back and relax in the backyard, the amazingly low 44 dB generated by the CMS-1 makes it as quiet as a gentle rain.

### Smallest

Gecko went the extra mile to make sure our new CMS-1 is the smallest of its category! This pump takes up to 23% less space than our closest competitor's pump. Easy to use with our unique and simple mounting bracket, which allows the user to multiply his options when positioning the pump.

New!

Not for  
North  
American  
Market

## in.temp mini

The most affordable heat pump fully integrated with your hot tub system

Unleash energy savings with a budget-friendly investment

The Gecko in.temp mini offers an unbeatable price point for a fully integrated heat pump, making energy savings simple and accessible to all hot tub owners.

Seamless integration for effortless control

Seamless integration: no confusing setups! Just like our other in.temp heat pumps, our new mini is thoughtfully designed to seamlessly integrate with the Gecko mobile application and compatible keypads. All this with a hassle-free installation that does not require any additional power connection. It's plug-and-play from the Gecko control system!

Whisper-quiet comfort for unforgettable relaxation

So small and quiet, it's been designed to be forgotten! With convenience in mind, the Gecko in.temp mini boasts a sleek, sober and remarkably compact design that fits easily into any decor style. Out of sight, out of mind!

With a remarkably low 49dBA in operation mode, you won't even know it's there!

In order to limit the heat loss from the piping, it is recommended to install the heat pump as close as possible to the hot tub. A 16-foot (5-m) cord is provided.

# maelstrom™

## VMS-1

## The quietest massage pump in the spa industry

The VMS-1 is a smart, variable speed pump that offers an enhanced hydrotherapy experience with a strong but quiet 3hp output

### Compact

Minimal dimensions but still outstanding performance. In fact, compared to a conventional pump of the same output power, the VMS-1 is 4 inches shorter, an impressive 23% difference! And with its exclusive base design, there's no more need to execute time-consuming wet-end rotation as we do on standard pumps.

### Energy-efficient

Thanks to its revolutionary electric motor, the VMS-1 moves water more efficiently. For example, at the same high-speed level, the VMS-1 reaches an impressive 10% more efficiency compared to the competition.

### Massage experience

Elevate your offer with a multiple selection of massages based on the variable speed capacity of the VMS-1. All this with an ultra-quiet pump that spa users' ears will greatly appreciate!

# flx.go

The only high-resolution keypad designed  
to be installed face in

With Gecko's unique Turn-N-Press  
technology, it has never been  
easier to control a hot tub

The new flx.go is not only the most distinctive keypad,  
it's also a convenient new way to control hot tubs that will  
please every spa user. Its dial ring works perfectly  
under all conditions, even with wet fingers.

Whatever the size of your hands, navigation and selection  
is easy, and you'll always have a clear view of the screen,  
with pictograms that can be easily seen by users of all ages.

Designed to work  
under all conditions!

The flx.go is offering a new world of possibilities to spa  
manufacturers because it is the only high-resolution keypad  
truly designed to be installed face in. Why not install more than  
one? This unique spa experience offers easy access to pump  
controls without leaving your seat during a massage session.  
The face in flx.go is also perfect for swim spas: This keypad is  
the easiest to see and access for an athlete  
in action — no need to remove goggles!

## Y series control systems

Optimize your customers' spa experience  
with Gecko's new generation of Y series control systems

### Universal fit

Y series is designed to fit in perfectly and to be easily installed, powered and connected to pumps and accessories of spas of all sizes and configurations.

### Immediate boost

Y series delivers optimal performance and total control, giving spa owners the immediate satisfaction of getting a lot more than they expected.

### Future expandability

Y series allows the addition of wireless control from mobile devices, water sanitization, audio streaming and more, to maximize the spa experience.

## in.lu.me & in.mix 300

The most comprehensive LED system for spas

in.lu.me cables and LED lights are in.mix 300's perfect companions

A lighting console at your fingertips

When connected to one of our Y series control systems, in.mix 300 transforms your keypad into a real lighting console.

Lights up to 3 different color zones

in.mix 300 can control up to 3 independently managed or synchronized light zones in or around your spa.

The power to create the perfect ambiance

Create a personalized ambiance easily with an infinite selection of colors and a light-intensity dimmer.

For quick, easy and clean installation

in.lu.me eases the process of installing cables, lights and other equipment to seriously light up your spa.

Sleek cable and connector designs

Cleverly designed loop, spyder and cluster cables and connectors with high-intensity RGB LED lights.

Connects directly to the in.yj and in.ye control systems

No need for an external LED controller. Full control of the color of your lights directly from the keypad.

in.mix 300 comes with a built-in power supply and can be connected to a 120V or 240V output of a Y series control system. It can drive up to a hundred points of RGB (red, green, blue) in three zones. More at [www.geckoalliance.com](http://www.geckoalliance.com)

## in.touch 2

Gecko's ultimate mobile remote control for your spa  
Easily integrate your spa to the Internet of Things!

### Simplest of setups

in.touch 2 comes with 2 pre-paired RF transmitters, one being part of your spa system and the second to be connected to your Internet router.

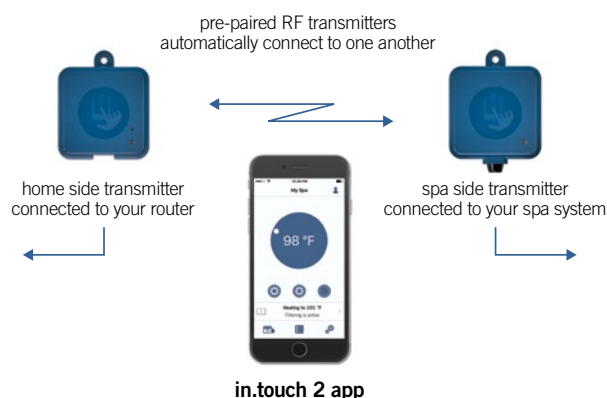

### Strong, long-range signal

in.touch 2 transmitters emit a strong, stable and long-range signal between your spa and your router (about 3 times longer than a regular signal).

### State-of-the-art apps

in.touch 2's iOS and Android apps make it very easy to control and program functions and features of your spa from your smartphone or your tablet.

## in.stream 2

Outdoor audio station for spas  
and the whole backyard

**Awesome  
sound quality**

in.stream 2 features Class D  
amplifier technology to  
enhance your outdoor  
audio experience.

in.k1000 touch screen keypad  
audio interface

**All-in-one audio system  
and power supply**

Compact, rugged and  
splash-proof, in.stream 2  
has a built-in power supply  
designed to get the most  
out of its amplifier.

in.k800 keypad audio interface

## in.clear

Clear, clean, soft water  
every time ou use your spa

**Automatic genera-  
tion of bromine**

No need to add chemicals  
to your spa every week.  
in.clear is a very low main-  
tenance system. Water  
stays clean even if left  
alone for weeks at a time.

**Free of  
harsh chemicals**

The low salt requirement of  
in.clear and the absence of  
harsh chemicals provide  
the sanitization needed to  
give a perfect feel to the  
water of your spa.

**Easy adjuster  
(maintenance mode)**

Once you find the proper  
adjustment for your spa,  
the level is set. This main-  
tenance level monitors and  
controls residual bromine  
in your spa.

**Self-diagnostic**

Keypad messages and  
indicators let you know  
when to add BromiCharge  
salt for optimal  
bromine generation.
