### Our products

Our electronic spa controls combine innovation and versatility, and work with a wide range of spas, from the simplest to the most complex. Easy to install, with configuration menus accessible from the keypad — our replacement kits are great value, and are sure to be a must-have in the repair truck.

We also manufacture Maelstrom and Aqua-Flo trademark pumps, known for their energy efficiency and their superior hydraulic capacity. Whether you want to reduce your energy consumption without losing out on power, or to gain power without paying a bundle in energy bills, we have a pump for you.

### Our service

Gecko's technical support team strives to offer the highest level of services. Our team of technicians is there to help your company with any questions you may have on our products, our processes or follow up on an order.

## Return Procedure

---

Need to return merchandise? Please follow our return procedure:

- 1 Complete the Return Form and e-mail it back to Gecko Alliance to **warranty@geckcoal.com**
- 2 Upon reception of the Return Form, Gecko Alliance will issue a Returned Merchandise Authorization Number (RMA#) and will e-mail it back to you.
- 3 Please note that:
  - you must write the RMA# on all boxes addressed and returned to Gecko Alliance. Any merchandise returned without an RMA# will be sent back to its sender.
  - you must carefully pack the returned merchandise or you will be held responsible for any damage incurred during transportation.
- 4 Send the merchandise to Gecko Alliance, freight prepaid. Please keep the waybill numbers of your shipment(s) in case the merchandise is lost and tracking is necessary.
- 5 Returned merchandise will be tested within a maximum of 2 weeks after receipt. If the cause of the problem is not covered by Gecko's warranty, the repair will be invoiced to you (see Warranty Statement).
- 6 Repaired merchandise will be returned. Products that cannot be repaired will be replaced by the same, or an equivalent, product. A service invoice is issued and mailed with each report.

**Note 1:** When the Ozonator is not controlled by a relay, it can be tied to Pump 1 Low speed or Circ. Pump using cable AMP 9920-401369.

**Note 2:** Circ. pump is connected to a Direct fused outlet. Pump will always be on and may overheat if oversized pump is used.

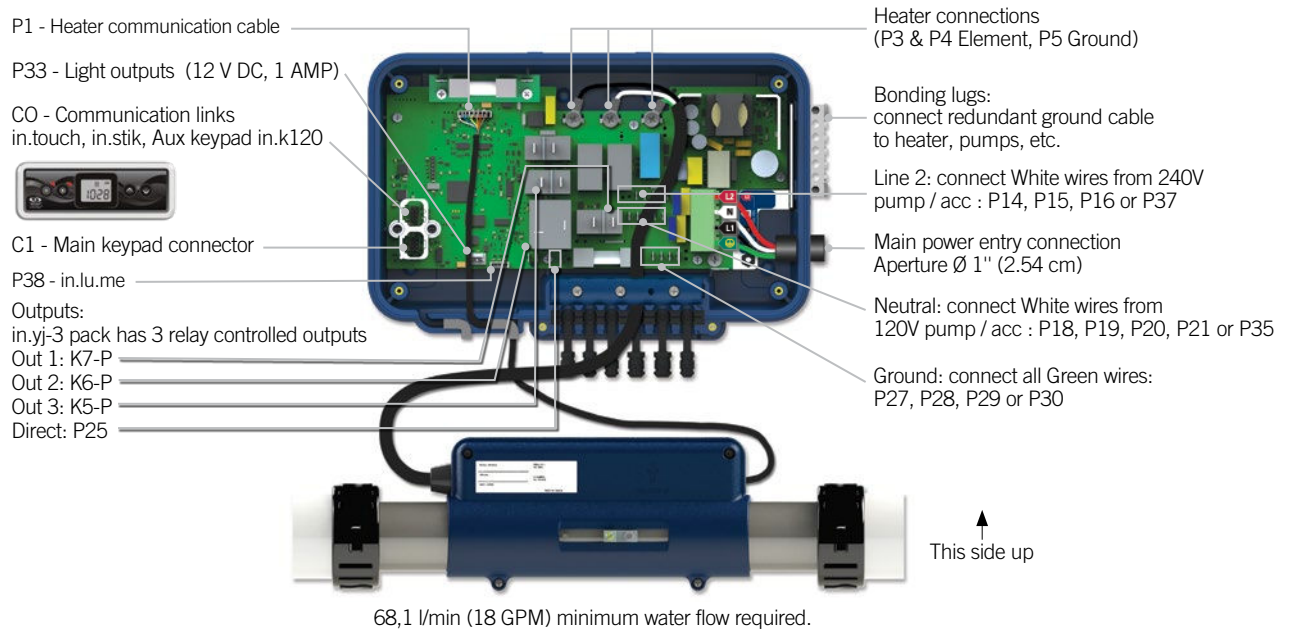

**Note 3:** This accessory does not have its own AMP connector. Rewire A0 if not used or order extra AMP connector 9920-401346 (Black wire to P43 tab on the board, Green to any G tabs and white to any N tabs for 120 V accessory or any L2 tabs for 240 V).

**Note 4:** Configuration 7 is preselected from factory.

**Note 5:** When the Ozonator is not controlled by a relay, it can be tied to Pump 1 Low speed or Circ. Pump.

## Low Level Configuration
