Smarter Experience

One app for your entire spa.

Your spa, ready when you are

Control every spa moment, from anywhere.

Everything is set before you even step in. Temperature, lights, massage. All within your reach, wherever you are.

Save energy without the effort

Heat your spa only when needed.

Plan your spa time in advance. Heat it when you need it, and save costs when you don't. Always ready, without wasting energy.

Clean water. No guesswork.

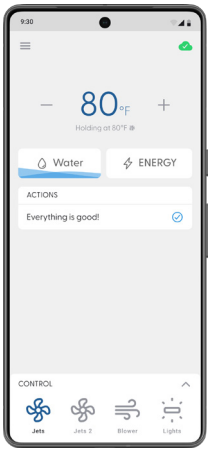

Water maintenance made simple.

Always come back to clear, balanced water. With simple guidance and personalized recommendations, taking care of your water just feels easier.
