Experience Line

Gecko **water**lab

Smarter water care

Clear water. Without the guesswork.

No more guessing

Know exactly what your water needs.

Access precise water readings anytime, no color matching. Continuous monitoring with alerts helps prevent water issues before they happen.

Simple to use

Water care, simplified.

Get clear, step-by-step instructions to keep your water perfect all in one app.

Set & forget solution

Built to stay out of your way.

Fully hidden under the spa, the 4-year probe runs continuously with just one calibration.

Experience Line

Gecko **waterlab**

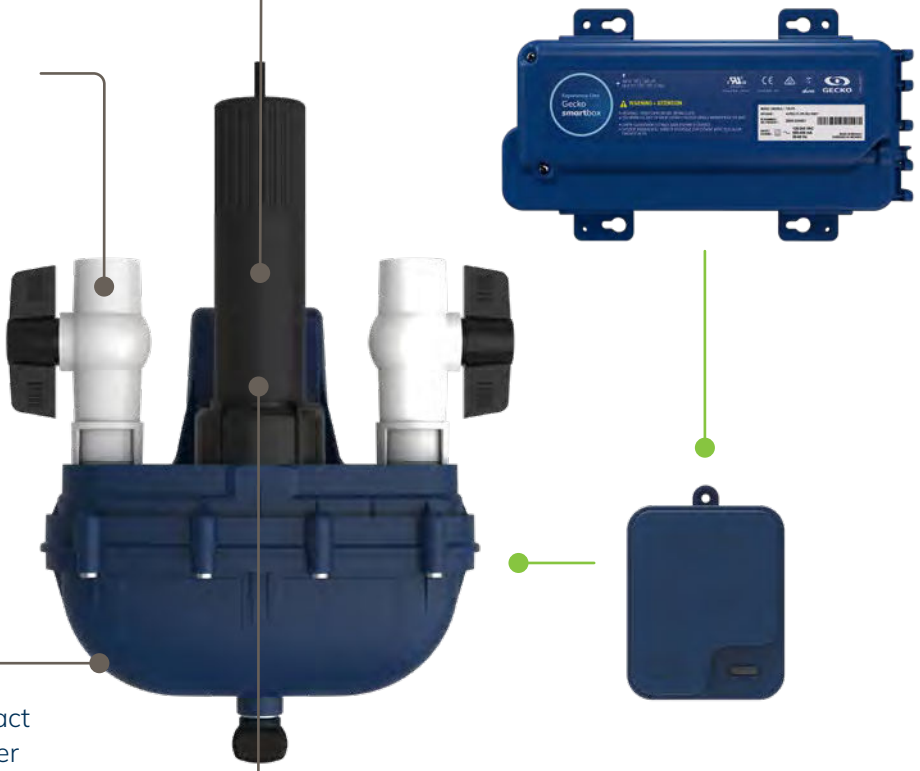

Water monitoring device

Hidden, long-life design

Built to stay out of your way, the fully integrated 4-year probe operates under the spa with minimal calibration and reduced maintenance.

Guided water intelligence

Built to eliminate guesswork, the system analyzes your water and delivers precise, step-by-step recommendations based on real conditions.

Built to last

Built for easy installation, the compact inline design integrates cleanly under the spa without adding complexity to regular maintenance.

High-precision sensors

Built for accuracy, integrated sensors continuously monitor pH, temperature, and sanitation levels delivering reliable, real-time data.

Specifications

Product	**Gecko waterlab**
Dimensions (L x H x D):	9.05 x 9.02 x 4.25 in
Probe lifetime:	4 years
Calibration interval:	2 years
Compatibility:	Gecko smartbox
Power supply:	12Vdc/70mA
